CLAUSES

FIRST. The objective of this Agreement is to establish the basis for an exchange program for undergraduate and graduate students and academic personnel, between both universities, in the on-site and/or virtual modalities.

Undergraduate and Graduate Student Exchanges

SECOND. Each Party will select and nominate its students to participate in the exchange program, according to the procedures and requirements set forth by the host institution. The admittance of exchange students remains within the discretion of the host institution.

THIRD. Student exchanges under this Agreement will be adjusted to the school calendar of each university and may have a duration of one semester or a full academic year, or a shorter duration, when the academic program so requires, upon agreement between both universities.

FOURTH. Students selected for the exchange program may take courses at the host institution, as long as they correspond to the same level and/or are comparable to those taught at their home institution.

FIFTH. The home institution will submit the required documents of the selected students to the host institution for information and admittance purposes, on the deadline date indicated by the host institution.

SIXTH. Students participating in the exchange program will pay their own registration and tuition fees at their home institution. The host institution will not charge them for these items.

SEVENTH. Both universities agree to exchange, under this agreement, up to four (4) students per academic semester. Any adjustment on the disparity in the number of students shall be made the following year.

EIGHTH. After the final examination period and the exchange period, the host institution will send to the home institution a report with the grades obtained by each exchange student. The conversion of academic records will be subject to the regulations of each of the universities signatory to this Agreement. If requested, the host institution will provide course descriptions and *curricula vitae* of the professors with whom the exchange students have taken classes, as well as information on the institution's grading system.

NINTH. The students selected for the exchange will have the same rights and responsibilities, academic and administrative, that the receiving institution contemplates for its own students. Exchange students must abide by the laws and university regulations and may be subject to the sanctions contemplated in case of non-compliance with this section; in this case, the home institution must be informed. Exchange students will not obtain a degree from the receiving institution.

TENTH. Both institutions agree that it is the responsibility of the exchange students to carry out the immigration procedures to obtain the visa in their country of origin.

ELEVENTH. Exchange students will be responsible for all additional expenses of the exchange, including transportation, lodging, food and medical insurance.

FOURTEENTH. The institutions, to the extent of their possibilities, may support the academic personnel in exchange in obtaining resources to cover the costs of transportation, lodging, food and international medical insurance.

The institution sending academic personnel shall be responsible for covering their salaries.

FIFTEENTH. The academic personnel participating in this Agreement must carry out the procedures provided for in the regulations of their institution of origin, so that they may be authorized to be absent from their academic work during the time of their stay at the receiving institution.
